ENDURANCE

ENDURANCE

STRETCHING = Stretching is one of the most important things you can do to stay injury free. No matter how busy you are, you should take time to stretch, especially after your workouts.

FTLK = This is a FARTLEK workout. Fartlek is a Swedish word meaning speedplay. For our purposes, these are easy walks, interrupted by one to two minute bursts of faster walking, perhaps using racewalking technique, or by walking fast up every hill if you train on a hilly course. Don't worry about when or how many bursts you do, just throw in a fast spurt whenever you feel like it.

TEMPO = This is a Tempo workout. 10-10-10 means do an easy 10 minute warm up, 10 minutes at race pace, and then an easy 10 minute cool down. It's okay to substitute a 5 to 10 km race on these days, just don't push too hard.
